Lesson schedule rules

When scheduling lesson times, riders (or drivers-guardians) must keep the following time schedule in mind:

- Barn time begins 15 minutes BEFORE a lesson is scheduled. It takes 10 minutes to properly groom your horse and 5 minutes to safely tack up your horse. Each rider is expected to groom and tack their own horse, with assistance, guidance and help as required. **NO EXCEPTIONS.**
- Lessons are about 45 minutes of riding for a private lesson, 55 minutes of riding for a semi-private and 65+ minutes of riding for a small group. Weather, work being done and time schedule of rider will be considered.
- All riders should allow **AT LEAST** 15 minutes of clean up time AFTER each lesson. It takes 10 minutes to properly wash your horse and make him comfortable after a ride and 5 minutes to clean your tack. Each rider is expected to clean their own horse and wipe off their own tack after each ride. **NO EXCEPTIONS.**
- These horses do a great job for you. Making them comfortable after each ride is your responsibility. Take it seriously. *This is especially true for riders hoping to have and keep their own horses someday. This is a serious job; you must take it seriously.*
- Tack is yours to use but belongs to **SOMEONE ELSE**. Take care of it.
